ABOUT ME

Self-taught front-end developer with a proven ability to adapt and thrive in dynamic environments. Skilled in building intuitive and efficient user interfaces, I bring a strong sense of autonomy and discipline, honed through extensive experience in remote work. Currently seeking a **full-time** position or **freelance** collaboration within a forward-thinking team that values learning, flexibility, and a positive, supportive culture.

SKILLS

Front-end : Vue, React, Next, Nuxt, Typescript, Tailwind, JS

Back-end : Node, PostgreSQL, SQLite, MySQL

Frameworks : PrimeReact, Primevue, Express

Gestion projet : JIRA, Notion, Github

UI : Figma

EDUCATION

IIM Digital School - Pôle Léonard de Vinci

2023-2025

Master Lead Development

2022-2023

Digital Bootcamp

PROFESSIONAL EXPERIENCES

Frontend developer – 3 years

2022-2025

Patrowl

Front-end : Implemented new features, pages, and continuous improvements for a web platform using Vue.js, Vuetify, and TypeScript after migrating to Vue 3 and PrimeVue.

Design : Prototyped using Figma, designed and refined user interface to enhance user experience and platform ergonomics

Technical and functional overhaul : Full migration of the platform to a modern tech stack, including TypeScript, Vue 3, and PrimeVue.

Testing and Quality Assurance : Created and executed unit and functional tests using Playwright, to ensure the reliability and robustness of new features..

Agile Collaboration : Worked in an Agile environment (SCRUM), managing tasks via Jira and actively contributing to sprint planning and team collaboration.

Introduction to Cybersecurity : Gained foundational knowledge in cybersecurity concepts and the challenges related to data and system protection.

PROJECTS

Readventures : Fullstack personal book tracking app

Vortex : Fullstack booking platform for unique experiences
